Dear EPA Media Relation,

Thank you very much for your prompt reply.

Can you please tell me what toxic element was in the wastewater? (iron, copper?)

Best regards,
Shiho

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife.

Please see our website for the latest information: <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response>

Regular updates will be posted as they are available.

Subject: Press Releases on Spill in Colorado

Hello, my name is Shiho and I am a news producer with Nippon Television (NTV), a Japanese news broadcaster based in New York. NTV is the oldest and biggest commercial television network with the highest views in Japan.

Can you please send me press releases/ information on spill to River from Gold King Mine?

Thank you very much.

Best regards,
Shiho

*** A little bit about Nippon TV ***

Nippon Television Network (NTV) is Japan's largest, oldest and most watched commercial television network. NTV was the first network in Japan to be granted a license to broadcast television in 1952 and has always focused on excellence in their programming, news coverage, sports coverage and entertainment. NTV has had some of the highest ratings of all Japanese networks for more than ten years.

NTV has the largest cable television news network in Japan called NNN or Nippon Network News. We have around 30 affiliate stations in Japan, and our coverage and our viewers broaden out throughout Japan. NTV is a leading provider of news with more than 6 million people tuning into their news broadcasts on a nearly nightly basis.

Nippon Television also covers the entire world with bureaus in Washington D.C., Moscow, Cairo, London, Paris, Beijing, Bangkok, Seoul and others. Together with 12 bureaus throughout the world connected by a sophisticated satellite network, NTV is able to bring its millions of viewers the most comprehensive news coverage amongst Japan's many commercial television networks.
